Ideation Phase
Brainstorm & Idea Prioritization Template

Date	19 Feb. 2026
Team ID	LTVIP2026TMIDS83753
Project Name	Weather-Based Prediction of Wind Turbine Energy Output: A Next-Generation Approach to Renewable Energy Management

Brainstorm & Idea Prioritization Template:

Brainstorming provides an open environment where team members discuss and generate ideas to solve the problem of predicting wind turbine energy output. All ideas related to weather data, machine learning models, and system development are considered before selecting the best solution.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.
